Section 4: First Aid Measures

Inhalation: Move person to fresh air.

Skin Contact: Wash thoroughly with soap and plenty of water.

Eye Contact: Flush eyes with water for at least 5 minutes.

Ingestion: If swallowed, give 1-2 glasses of water to drink. Do not induce vomiting unless directed to do so by medical personnel.

Section 5: Firefighting Measures

Suitable Extinguishing Media: Water fog, foam, dry chemical or carbon dioxide. Do not use direct water spray as this may spread the fire.

Unusual Fire and Explosion Hazards: None.

Fire Fighting Procedures: Exposed firefighters must wear NIOSH-approved positive pressure self-contained breathing apparatus with full-face mask and full protective clothing.

Hazardous Combustion Products: Oxides of carbon and nitrogen.

Section 6: Accidental Release Measures

Personal Protection: Wear protective equipment listed in Section 8.

Spill Procedures: Isolate the hazard and deny entry to unnecessary and unprotected personnel. Do not walk through or otherwise scatter spilled material. Small spills: Take up with sand or other absorbent material and place into containers for later disposal. Large spills: Dike far ahead of spill. Follow same procedure as for a small spill.

Environmental Precautions and Cleanup Methods: Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. Clean spill area with soap and water.

Section 7: Handling and Storage

Handling: Thaw and mix well before use. Do not get in eyes, on skin or on clothing. Keep container closed. Use good personal hygiene practices. Wash hands before eating, drinking, smoking. Keep away from heat and flame.

Storage: Store in tightly closed containers in cool, dry area away from heat, sources of ignition and incompatibles. Store 23.3 °C – 38.8 °C (74 °F – 100 °F). Protect against physical damage.

Section 8: Exposure Controls/Personal Protection

Exposure limits:

Component	CAS No.	OSHA/PEL	ACGIH/TLV
Triethanolamine	102-71-6	NE	5 mg/m ³

Eye/Face Protection: Wear chemical safety goggles and a face shield.

Skin Protection: Wear impervious gloves. Cover exposed skin.

Respiratory Protection: For airborne exposure above the exposure limit, wear a NIOSH approved air-purifying respirator equipped with organic vapor cartridges. For situations where the atmospheric

levels may exceed the level for which an air-purifying respirator is effective, use a positive-pressure air-supplying respirator.
